

REMARKS

The amendments to the drawings and specification do not constitute new matter but are added as a matter of formality for the purpose of facilitating identification of the indicated part in the specification. Applicants respectfully request the Office to indicate their acceptance of the one new drawing sheet (sheet 14/14) and two replacement drawing sheets (sheet 1/14 and sheet 13/14) .

SUMMARY

This RCE is responsive to the Office Action dated February 2, 2005. A one-month extension of time is requested to respond to this action. All fees associated with this should be charged to Deposit Account No.: 16-2480. No new matter is added.

Respectfully submitted,
FOR: CURRY ET AL.;

AMENDMENTS TO THE DRAWINGS

The Office Action indicates that the drawings are objected to for the reasons of record as stated on pages 2 and 3 of the Office Action. The Office Action indicates that the "first and second flaps" and "pores" of (Claim 44)" must be shown in the drawings. In accordance with the Office Action, new drawing FIG. 16 is being submitted herewith which shows this structure. A reference numeral ("99") has been provided in order to facilitate identification of the pores both in FIG. 16 and in the specification. A replacement drawing for FIG. 1 is also being submitted herewith which refers to new FIG. 16.

Additionally, it is noted that the figure included on original drawing sheet 13/13 was inadvertently mislabeled as "FIG. 13". This figure should have been labeled "FIG. 15". Applicants are submitting herewith a replacement drawing for drawing sheet 13/13 which corrects this typographical error.
